# NEPTUNE

SF 330E

*Matrix scraper*

The NEPTUNE series range can be used on line either with printing machines or independently, increasing working speed.

Web positioning system through lateral drive rings and suction drum for a perfect material entrance into free web.

Pulling drum covered with very high grip plastic, to avoid any slipping even at strong tensions.

SERVO-DRIVEN machine's motorization with perfect web motion control.

Tangential matrix removing system with constant tension on the waste and matrix perfect rewinding.

Electronic device to work irregular and difficult shapes or labels with short step.

Clean and precise cut of plastic and paper materials thanks to the scissor device. The self-sharpening system prevents knives' wear and tear.

Rewinding on interchangeable, pneumatic shafts with different sizes.

Thanks to the ultimate R/S axis, NEPTUNE is 2 machines in 1. This shaft can be used as rewinder to finish the job in big rolls or as unwinder with no need to buy an external one.

Easy and high-quality, Neptune is matrix stripper as well as unwinder, slitter and rewinder.

## Technical Specifications

### Mechanical width

mm 350

### Max. speed

m/min 150

### Choice of rewinder shafts

from 24,9 mm to 105 mm

### Max. matrix roll diameter

mm 630

### Max rewinding diameter on std shaft

mm 520

### Inside/outside rewinding

### Scissor knives / counter-knives slit

4 groups included

### Minimum slit width

13 mm

### Max. R/S axis diameter

mm 600

### Counting labels, dm., with automatic slowing down

### Electrical power

3x400Vac 50 Hz.

### Dried filtered air

7<P<12 bar

### Dimensions

L. mm 1.450

H. mm 1.650

D. mm 1.130
